

Introducing the Human Resources Information Systems (HRIS) Quadrant Software Webinar Launch!

The Community Care Information Management (CCIM) program's HRIS project team has launched a new **HRIS Quadrant Software Webinar** for Community Mental Health and Addictions (CMH&A) and Community Support Services (CSS) organizations across the province.

Our first Webinar was held on January 12th and due to the great response from the participating organizations, we have scheduled additional Webinar dates.

The HRIS project team is continually looking for ways to enhance the implementation process and increase awareness – and this webinar is another way to open up the door to organizations looking for more information on the software. The rollout of Quadrant (Human Resources, Payroll, Scheduling and Self Service) is proving to be a success across both sectors as organizations share their feedback about their implementation and training experience with the new software.

Learn more about the HRIS Quadrant Software. Choose a webinar date most convenient for you:

Wednesday, February 10, 2010 at 10:00 a.m. to 11:30 a.m. EST
Registration Deadline: Thursday, February 4, 2010 at 4:00 p.m. EST

Thursday March 4, 2010 at 10:00 a.m. to 11:30 a.m. EST
Registration Deadline: Monday, March 1st, 2010 at 4:00 p.m. EST

Attend this webinar and learn more about how you can:

- ✓ **Implement user-friendly software**
- ✓ **Streamline back-office processes**
- ✓ **Meet Ontario Healthcare Reporting Standards requirements**

This interactive webinar will also provide an opportunity for participants to ask questions and watch a demonstration of the software.

To participate send an e-mail to the HRIS Support Centre and they will send you a registration form to complete. Spaces will be reserved on a "first come first served" basis, so register now!

CMH&A organizations: cmh_a.hris.moh@ontario.ca

CSS organizations: css.hris.moh@ontario.ca.

Want to know more about us?

CCIM works to provide community-based client care where all service providers can securely share and access consistent and accurate information electronically.

The HRIS project is implementing the Ontario Healthcare Reporting Standards/Management Information Systems (OHRIS/MIS) compliant software, Quadrant, in participating Community Support Services (CSS) and Community Mental Health and Addictions (CMH&A) organizations across Ontario.
