The North Simcoe Muskoka Local Health Integration Network (LHIN) is one of 14 local organizations in Ontario that plan, coordinate and fund local health services and deliver high quality home and community care to patients and families. The North Simcoe Muskoka LHIN is committed to health improvement, innovation, and the establishment of collaborative partnerships to improve population health, patient experience and value for money across the health care system.

LHIN staff incorporate the best aspects of teamwork and continuous learning as they work with the local community to ensure the best health outcomes for everyone. If you have a passion for excellence and an entrepreneurial spirit, this is your opportunity to make a difference as part of a dynamic team transforming the Ontario healthcare system.

Musculoskeletal Project Manager

The Musculoskeletal (MSK) Project Manager will support the development and implementation of an integrated musculoskeletal central intake and assessment program across the region. The program will provide timely, equitable, accessible, high quality, evidence-based people-centered services in an efficient, effective and sustainable manner. The Project Manager will work with the MSK Working Group; MSK Steering Committee; LHIN Lead; Health Quality Ontario (HQO), Adopting Research to Improve Care (ARTIC) and appropriate stakeholders to meet this objective.

KEY RESPONSIBILITIES

- Provides all aspects project management including project coordination and project budget management.
- Prepares a project work plan that complies with project charter (e.g., deliverables, milestones, risk mitigation, timelines, budget, scope etc.).
- Liaises and consults with members of the MSK Project Team and other key stakeholders to refine the scope as necessary.
- Tracks process through utilization of project management tools to monitor implementation of the approved action plan and ensure deliverables and timelines are met.
- Works with MSK Working Group, MSK Steering Committee and Surgical Coordinating Council to develop and implement an evaluation framework (including performance measures).
- Prepares regular project status reports.

Your qualifications and experience will include

- Post-secondary degree in health sciences, health administration, health planning, business administration or relevant field required.
- Project Management Professional Certification is preferred.
- Lean Six Sigma certification is an asset.

- Minimum of five (5) years' of related experience in a health care organization.
- Minimum of two (2) years' experience in a leadership role.
- An in-depth understanding of the Ontario health care system, its stakeholders, programs and issues.
- Experience in acute care and/ or community based musculoskeletal services.
- Experience with a regional project/program implementation.
- Experience in project administration/management and project management methodology, including use of project management software an asset.
- Demonstrated experience working effectively in partnership with a broad range of individuals and organizations of diverse backgrounds, preferably within the health care sector.
- Knowledge of e-Referral solutions and related issues is considered an asset.
- Oral proficiency in French is an asset.

To apply for this position, state ' PROJECT MANAGER" in the subject line of your email and send with your résumé to nsm.careers@lhins.on.ca . This position is temporary full-time until September 2019 and will work out of our Orillia office.

The LHIN is governed by the requirements of the *French Language Services Act* and therefore encourages applications from French speaking candidates.

The LHIN is committed to accommodating people with disabilities as part of our hiring process. If you have any special requirements during the recruitment process, please advise Human Resources.

We thank all applicants who take the time to apply; however, only those invited for an interview will be contacted.

As part of the mandatory screen process the LHIN requires professional references, verification of academic training, professional accreditation, plus a current Criminal Records Check.
