

**NSM LHIN Standardization of Wound Management Strategy  
 Steering Committee**

- May 6, 2010
- 4 – 620 pm
- NSM CCAC office, Barrie

As you know, our industry partners have been given an opportunity to describe their ‘value added’ offering in regards to the Regional Wound Management Strategy project, to our steering committee.

At April’s steering committee meeting, we heard from Systagenix and Smith and Nephew. On May 6<sup>th</sup>, we will be hearing from a further 5 of our industry partners, on the topic of what resources they have available to our group, as we move forward in this initiative.

Please note, that due to the fixed schedule, we will be starting our meeting promptly at 4pm and ending at 620pm. This change in ‘end time’ will occur this month only to allow for these presentations to take place.

As always, forward any regrets to your attendance, to my attention,

<b>April 8, 2010</b>	<b>Time</b>	<b>May 6, 2010</b>	<b>Time</b>
<b>Systagenix</b>	4:30 – 4:50 pm	<b>Molnyke</b>	4:10 – 4:30 pm
<b>Smith and Nephew</b>	5:00 – 5:20 pm	<b>ConvaTec</b>	4:40 – 5:00 pm
		<b>Coloplast</b>	5:10 – 5:30 pm
		<b>KCI</b>	5:30 – 6:00 pm
		<b>3M</b>	6:00 – 6:20 pm

*Please note that we will **not** be having a steering committee meeting during the month of June. This is due to the larger stakeholder meeting which will be happening in June, where Health Outcomes Worldwide will present the results of the prevalence data collection exercises, from across the NSM LHIN. Please watch for the invitation and plan to attend!*
